

NIRMALA BHAVAN ATHANI 2022

We had 13 blind girls in the boarding during the year 2022. Most of them are totally blind and few of them can see partially. Majority of them are attending the classes in Sneha Jyothi, the special school run by the Claritian Priests and few of them are going to the regular college.

The children are really happy and interested in their daily programs though they cannot see the sun shine, the beauty of God's marvelous creation, even their own dear and near ones. It's always amazing to see how they manage their own personal things like, dressing up, washing the cloths etc. God has given them a special gift of recognizing the persons with their voice.

Most of them do well in their studies, learn to sing and play some musical instruments. They make the daily prayer service and Holy Eucharist very vibrant and meaningful with their melodies singing and active participation. They are very much united among themselves.

It gives us lot of joy and satisfaction to see that many of our students who went out of our boarding is doing well in the society. Many have got jobs according to their abilities. Their lives and movements constantly reminds us to be ever grateful to God for the gift of sight which we take it for granted.

May God be gracious and generous to all of you dear friends for your genuine love and consideration towards these children. May all of you be richly rewarded by Him.

Sr. Anthonamma Ashirvadam
Sister In charge.
